

Always  
in motion  
for you ...

More than 40 years of tradition

**GLASS**  
MADE IN GERMANY

Your Strong Partner

**GLASS – the Alpha and Omega of Quality**

- In the **GLASS research department**, experienced engineers develop food-processing machines and systems that are customized to your specific demands.
- All machines are entirely manufactured in the **GLASS assembly halls** in consideration of the highest standards regarding hygienic processes and procedures.
- At the same time, we keep an eye on the optimization of your work-flow so you will raise your productivity while maximizing energy efficiency.
- Qualified **GLASS technicians** install the machines and instruct your operators. The worldwide **GLASS Service** and maintenance assists your own story of success.
- The state of the art **GLASS Demo Center** provides access to our machines that you can use anytime for trials with your own products.

The „**THINK TANK**“  
for tailor-made food processing  
equipment.

... for the food-processing industry
